To the Shareholders

Dear Sir or Madam,

MAJOR AND CONNECTED TRANSACTION ENTERING INTO SUPPLEMENTAL AGREEMENT

INTRODUCTION

We refer to the announcement issued by the Company on 29 July 2022 in relation to entering into of the Supplemental Agreement. The purpose of this circular is to provide you with further details of the Supplemental Agreement and the transactions contemplated thereunder, a letter from the Independent Board Committee, a letter of advice from the Independent Financial Advisor to Independent Board Committee and Independent Shareholders in relation to the Transaction and other information required under the Listing Rules.

* For identification purpose only

Reference is made to the announcement of the Company dated 25 March 2019 in relation to the entering into of the Participation Agreement and the Limited Partnership Agreement by and among the Company, Guorong Chuangyin, BSAM, Beijing Science Development, Beijing Equity Exchange, Beijing Guotong, National Stadium and Jizhi Future on 25 March 2019, pursuant to which, the Partnership was formed for a duration of nine years commencing from 12 September 2018, which may be extended for no more than one year by the Manager. For the establishment of mainstream funds in the market, the typical duration of an equity investment fund is seven to nine years. In order to ensure the successful filing and compliance of the new sub-fund to be invested by the Partnership, it is proposed that the duration of the Partnership be extended from the original duration of nine years for another eight years (i.e. ending on 11 September 2035) and the investment period be extended from the original period of five years for another five years (i.e. ending on 11 September 2028), and the terms of the Limited Partnership Agreement be amended accordingly.

On 29 July 2022, the Company entered into the Supplemental Agreement with Guorong Chuangyin, BSAM, Beijing Science Development, Beijing Equity Exchange, Beijing Guotong, National Stadium and Jizhi Future, pursuant to which the parties agreed to revise, among others, the duration and investment period of the Partnership.

SUPPLEMENTAL AGREEMENT

The principal terms of the Supplemental Agreement are as follows:

Date

29 July 2022

 - Beijing Science Development, a connected person of the Company;
 - Beijing Guotong, a connected person of the Company;
 - National Stadium, a connected person of the Company; and
 - Jizhi Future, a connected person of the Company.

Subject matter of the Supplemental Agreement

Compared to the Limited Partnership Agreement, the Supplemental Agreement has been revised as follows:

Original terms of the Limited Partnership Agreement	Supplemental Agreement to the Limited Partnership Agreement
<p>Clause 2.8.1</p> <p>Unless dissolved earlier in accordance with Clause 12.1, the Partnership shall have a duration of nine (9) years from the Commencement Date, which may be extended by the Manager for not more than one (1) year in accordance with the operational needs of the Partnership (the foregoing periods being collectively referred to as the “Duration”). If the duration of the Partnership does not coincide with the operation period, the Manager may change such operation period in due course to keep the operation period coincide with the Duration.</p>	<p>Clause 2.8.1</p> <p>Unless dissolved earlier in accordance with Clause 12.1, the Partnership shall have a duration of nine (9) seventeen (17) years from the date of commencement, which may be extended by the Manager for not more than one (1) year in accordance with the operational needs of the Partnership (the foregoing periods being collectively referred to as the “Duration”). If the duration of the Partnership does not coincide with the operation period, the Manager may change such operation period in due course to keep the operation period coincide with the Duration.</p>
<p>Clause 2.8.2</p> <p>The “Investment Period” of the Partnership shall commence on the Commencement Date and end on the earliest of: 1) the date falling five (5) years from the date of legal registration of the Partnership with the industrial and commercial administration authority; or 2) the date of early termination of the Investment Period in accordance with the provisions of this Agreement. The remaining Duration after the expiration of the investment period shall be the “Payback Period” of the Partnership. The Manager may determine and adjust the Investment Period and the Payback Period according to the operational needs of the Partnership.</p>	<p>Clause 2.8.2</p> <p>The “Investment Period” of the Partnership shall commence on the Commencement Date and end on the earliest of: 1) the date falling five (5) years from the date of legal registration of the Partnership with the industrial and commercial administration authority the date falling ten (10) years from the Commencement Date or; 2) the date of early termination of the Investment Period in accordance with the provisions of this Agreement. The remaining Duration after the expiration of the investment period shall be the “Payback Period” of the Partnership. The Manager may determine and adjust the Investment Period and the Payback Period according to the operational needs of the Partnership.</p>

REASONS FOR AND BENEFITS OF THE TRANSACTION

According to The Instructions for Filing of Private Investment Fund* (《私募投資基金備案須知》) and The Notice on Announcement of Case of Private Fund Filing* (《關於發佈私募基金備案案例公示的通告》) issued by The Asset Management Association of China (中國證券投資基金協會), “maturity

mismatch” is stipulated as a wrongful act which private fund managers should not commit. Where a private equity fund or venture capital fund involves investment in other closed-end asset management products (including private equity funds), attention should be paid to whether the duration of the fund covers the duration of the asset management products invested, that is, the maturity date of the upper-level private equity fund (parent fund) should not be earlier than the maturity date of the lower-level private equity fund (sub-fund).

As at the Latest Practicable Date, the Partnership is currently investing in several projects, among which (i) since September 2019, the Partnership has invested in Beijing Kerui Xingyu Management Consulting Enterprise (Limited Partnership)*(北京科睿星御管理諮詢企業 (有限合夥)), which mainly supports the development and operation of the technology park and industrial park of the core area of the Yangtze River Delta of Beijing Science Development, and the duration of which will end in September 2022; (ii) since November 2021, the Partnership has invested in Beijing Guofa Aviation Engine Industry Investment Fund Center (Limited Partnership)*(北京國發航空發動機產業投資基金中心 (有限合夥)), which is mainly engaged in investment in aero-engine and gas turbine industry chain, high-quality military-civil fusion projects, involving new materials, high-end manufacturing, electronic system control and many other high-precision fields to enhance central-local cooperation and facilitate the industrial development of Beijing, and the duration of which will end in November 2026; and (iii) since December 2021, the Partnership has invested in Beijing Green Technology Innovation Suihebei Industry Equity Investment Fund Partnership (Limited Partnership)*(北京綠色科創穗禾北工股權投資基金合夥企業 (有限合夥)), which mainly focuses on investing in high-quality subject in green and low-carbon industries to support the development of innovative enterprises in science and technology and facilitate the implementation of the core development strategy of “carbon neutrality” in China and Beijing, and the duration of which will end in December 2027.

In addition, the Partnership intends to invest in Beijing Rongxin Juli Technology Equity Investment Fund*(北京融鑫聚力科技股權投資基金) in the third quarter of this year. The fund mainly focuses on the establishment of technology innovation center in Beijing and the development of principal business of BSAM, explores and cultivates “technologically advanced” enterprises in Beijing, focuses on new energy, next-generation information technology, integrated circuits, medicine and health and other frontier fields that are in line with the policy orientation and development aspiration of Beijing. The duration of the fund will end in the third quarter of 2029.

As stipulated in the Limited Partnership Agreement, the duration of the Partnership will be ending on 11 September 2027, which may be extended by the Manager to 11 September 2028, and the remaining duration of the Partnership is approximately five years.

For the establishment of mainstream funds in the market, the typical duration of an equity investment fund is seven to nine years. In order to ensure the successful filing and compliance of the new sub-fund to be invested by the Partnership, it is proposed that the duration of the Partnership be extended from the original duration of nine years for another eight years (i.e. ending on 11 September 2035) and the investment period be extended from the original period of five years for another five years (i.e. ending on 11 September 2028), and the terms of the Limited Partnership Agreement be amended accordingly. Therefore, through extending the duration of the Partnership, the newly established sub-fund to be invested by the Partnership will be able to complete the filing requirements in accordance and with the aforesaid rules and commence business in a compliant manner.

The Directors (including the independent non-executive Directors who have considered the advice from the Independent Financial Advisor) are of the view that the terms of the Supplemental Agreement and the transactions contemplated thereunder are on normal commercial terms or better, fair and reasonable and the Transaction is in the interests of the Company and the Shareholders as a whole.

Ms. Yan Yi, being an employee of BSAM, had abstained from voting on the board resolutions approving the Supplemental Agreement and the transactions contemplated thereunder. Save as disclosed above, none of the Directors has any material interest in the Supplemental Agreement.

FINANCIAL EFFECT OF ENTERING INTO THE SUPPLEMENTAL AGREEMENT

By entering into the Supplemental Agreement, the Company continues to hold 4% equity interest in the Partnership. As the Transaction will not result in change of shareholdings in the Partnership by the Company, no gain or loss will be recognized by the Company.

(a) Earnings

The remaining balance of the Group's capital contribution to the Partnership will be accounted for as other non-current financial assets of the Group and the calculation of value is according to the PRC accounting standards. Any gain or loss will be recognised in the financial statement under the PRC accounting standard, which, in turn, may have an impact to the earnings of the Group.

(b) Assets and liabilities

Except for the transaction costs and future performance of the Partnership, there is no gain or loss associated with entering into the Supplemental Agreement and the transactions contemplated thereunder.

There are no material changes in the total assets and liabilities of the Group immediately after the entering into the Supplemental Agreement.

(c) Working capital

The Directors are of the opinion that, taking into account the financial resources available to the Group, including the internally generated funds and the presently available bank facilities, and taking into account the impact of the transactions contemplated under the Supplemental Agreement, the Group will have sufficient working capital for its requirements for at least the next 12 months from the date of this circular.

The Company has obtained the relevant confirmation as required under Rule 14.66(12) of the Listing Rules.

IMPLICATIONS UNDER THE LISTING RULES

At the time of the entering into of the Participation Agreement and Limited Partnership Agreement, the transactions contemplated thereunder constituted a major transaction of the Company under Chapter 14 of the Listing Rules and a connected transaction of the Company for the purpose of Chapter 14A of the Listing Rules. The transactions as contemplated under the Participation Agreement and the Limited Partnership Agreement were approved by the Independent Shareholders on 21 June 2019 in accordance with the relevant requirements of the Listing Rules.

Pursuant to Rule 14.36 and the note to Rule 14A.35 of the Listing Rules, if there is any material variation of the terms of the agreement in relation to major transaction/connected transaction, the issuer must, where applicable, re-comply with the relevant requirements of the Listing Rules. Given that entering into of the Supplemental Agreement constitutes a material variation of terms of the Limited Partnership Agreement, an EGM will be convened for the purpose of, among others, considering, and if thought fit, approving the Supplemental Agreement and the transactions contemplated thereunder.

The Independent Board Committee, comprising Mr. Gong Zhiqiang, Mr. Cheung, Wai Hung Boswell, Mr. Yang Xiaohui and Mr. Su Zhongxing, the independent non-executive Directors, has been formed to advise the Independent Shareholders in relation to the Supplemental Agreement and the transactions contemplated thereunder. Red Solar Capital Limited has been appointed to make recommendations to the Independent Board Committee and the Independent Shareholders in relation to Supplemental Agreement and the transactions contemplated thereunder.

To: *The Independent Board Committee and the Independent Shareholders of
Capinfo Company Limited*

Dear Sirs,

MAJOR AND CONNECTED TRANSACTION ENTERING INTO SUPPLEMENTAL AGREEMENT

INTRODUCTION

We refer to our engagement as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the entering into of the Supplemental Agreement and the transactions contemplated thereunder (i.e., the Transaction), details of which are set out in the letter from the Board (the “**Letter from the Board**”) contained in the circular of the Company dated 19 September 2022 (the “**Circular**”), of which this letter of advice forms a part. Unless the context requires otherwise, capitalised terms used in this letter of advice shall have the same meanings as defined in the Circular.

References are made to the (i) announcement of the Company dated 25 March 2019 (the “**2019 Announcement**”) in relation to the entering into of the Participation Agreement and the Limited Partnership Agreement by and among the Company, Guorong Chuangyin, BSAM, Beijing Science Development, Beijing Equity Exchange, Beijing Guotong, National Stadium and Jizhi Future on 25 March 2019, pursuant to which, the Partnership was formed for a duration of nine years commencing from 12 September 2018, which may be extended for no more than one year by the Manager; and (ii) announcement of the Company dated 29 July 2022 (the “**2022 Announcement**”) and the Circular in relation to, among other things, the entering into of the Supplemental Agreement. For the establishment of mainstream funds in the market, the typical duration of an equity investment fund is seven to nine years. In order to ensure the successful filing and compliance of the new sub-fund to be invested by the Partnership, it is proposed that the duration of the Partnership be extended from the original duration of nine years for another eight years (i.e. ending on 11 September 2035) and the investment period be extended from the original period of five years for another five years (i.e. ending on 11 September 2028), and the terms of the Limited Partnership Agreement be amended accordingly. Hence, on 29 July 2022, the Company entered into the Supplemental Agreement with Guorong Chuangyin, BSAM, Beijing Science Development, Beijing Equity Exchange, Beijing Guotong, National Stadium and Jizhi Future, pursuant to which the parties agreed to revise, among others, the duration and investment period of the Partnership.

Listing Rules implications

At the time of the entering into of the Participation Agreement and Limited Partnership Agreement, the transactions contemplated thereunder constituted a major transaction of the Company under Chapter 14 of the Listing Rules and a connected transaction of the Company for the purpose of Chapter 14A of the Listing Rules. The transactions as contemplated under the Participation Agreement and the Limited Partnership Agreement were approved by the Independent Shareholders on 21 June 2019 in accordance with the relevant requirements of the Listing Rules.

Pursuant to Rule 14.36 and the note to Rule 14A.35 of the Listing Rules, if there is any material variation of its terms of the agreement in relation to major transaction/connected transaction, the issuer must, where applicable, re-comply with the relevant requirements of the Listing Rules. Given that entering into of the Supplemental Agreement constitutes a material variation of terms of the Limited Partnership Agreement, an EGM will be convened for the purpose of, among others, considering, and if thought fit, approving the Supplemental Agreement and the transactions contemplated thereunder.

Save as Ms. Yan Yi, being an employee of BSAM, who had abstained from voting on the board resolutions approving the Supplemental Agreement and the transactions contemplated thereunder, none of the Directors has any material interest in the Supplemental Agreement.

EGM

As at the Latest Practicable Date, BSAM, being the Controlling Shareholder of the Company, is interested in 1,834,541,756 Domestic Shares, representing approximately 63.31% of the issued share capital of the Company. BSAM is a party to the Supplemental Agreement, BSAM thus has a material interest in the relevant transactions as contemplated under the Supplemental Agreement. Therefore, BSAM will be required to abstain from voting on the resolutions in relation to the Supplemental Agreement and the transactions contemplated thereunder at the EGM.

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, no other Shareholder has any material interest in the Transaction, and therefore no other Shareholder is required to abstain from voting at the EGM in respect of the resolutions approving the aforesaid matters.

THE INDEPENDENT BOARD COMMITTEE AND INDEPENDENT FINANCIAL ADVISER

The Independent Board Committee, comprising Mr. Gong Zhiqiang, Mr. Cheung, Wai Hung Boswell, Mr. Yang Xiaohui and Mr. Su Zhongxing, the independent non-executive Directors, has been formed to advise the Independent Shareholders in relation to the Supplemental Agreement and the transactions contemplated thereunder.

We, Red Solar Capital Limited, have been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders as to whether the Transaction is fair and reasonable and in the interests of the Company and the Shareholders as a whole. Our appointment as the Independent Financial Adviser has been approved by the Independent Board Committee.

OUR INDEPENDENCE

During the past two years immediately preceding the Latest Practicable Date, save for this engagement of us as the Independent Financial Adviser, no other relationship has been formed and no direct engagement has been performed between the Group, the other party(ies) to the Transaction, or a close associate or core connected person of any of them and us. As at the Latest Practicable Date, we did not have any relationship with, or interest in, the Group, the other party(ies) to the Transaction, or a close associate or core connected person of any of them and us, or other parties that could reasonably be regarded as relevant to our independence. Apart from the normal advisory fee payable to us in connection with our engagement as the Independent Financial Adviser, no arrangement exists whereby we shall receive any other fees or benefits from the Company and its subsidiaries or their respective substantial shareholders or any party acting in concert, or presumed to be acting in concert, with any of them. Accordingly, we considered that we are independent to act as the Independent Financial Adviser in respect of the Transaction pursuant to Rule 13.84 of the Listing Rules.

BASIS OF OUR OPINION

In formulating our opinion and recommendation to the Independent Board Committee and the Independent Shareholders, we have relied on the information and facts supplied, opinions expressed, statements and representations made to us by the management of the Group (including but not limited to those contained or referred to in the 2022 Announcement and the Circular). We have reviewed the documents including but not limited to (i) the 2019 Announcement and the circular of the Company dated 31 May 2019 (the “**2019 Circular**”) in relation to, among other things, the entering into of the Participation Agreement and Limited Partnership Agreement; (ii) the Supplemental Agreement; (iii) the 2022 Announcement and the Circular and the Letter from the Board contained therein; (iv) the annual report of the Company for the year ended 31 December 2021 (the “**2021 Annual Report**”); (v) the interim results announcement of the Company for the six months ended 30 June 2022 (the “**2022 Interim Results Announcement**”); and (vi) the relevant supporting documents provided by the Company, including but not limited to historical documents and records, to formulate our opinion and recommendation. We have assumed that the information and facts supplied, opinions expressed, statements and representations made to us by the management of the Group were true, accurate and complete at the time they were made and continue to be true, accurate and complete in all material aspects until the date of the EGM. The Company will inform the Shareholders should there be any material change of information in the Circular up to the date of the EGM. We have also assumed that all statements of belief, opinions, expectation and intention made by the management of the Group in the Circular were reasonably made after due enquiry and careful consideration. Where applicable, we have also conducted independent desktop search and confirmed that there was no material difference between our search result and the information and facts supplied, opinions expressed, statements and representations made to us by the management of the Group. We have no reason to suspect that any material facts or information have been withheld or to doubt the truth, accuracy and completeness of the information and facts contained in the Circular, or the reasonableness of the opinions expressed by the Company, its management and/or advisers, which have been provided to us.

The Directors have collectively and individually accepted full responsibility of the Circular and have confirmed, having made all reasonable enquiries, that to the best of their knowledge and belief, the information contained in the Circular is accurate and complete in all material respects and not misleading or

deceptive, and there are no other matters the omission of which would make any statement herein or the Circular misleading. We, as the Independent Financial Adviser, take no responsibility for the contents of any part of the Circular, save and except for this letter of advice.

We considered that we have been provided with sufficient information to reach an informed view and to provide a reasonable basis for our opinion. We have not, however, conducted any independent in-depth investigation into the business and affairs or future prospects of the Group, or their respective shareholders, subsidiaries or associates, nor have we considered the taxation implication on the Group or the Shareholders as a result of the Transaction. Our opinion is necessarily based on the market, financial, economic and other conditions in effect and the information made available to us as at the Latest Practicable Date. Any subsequent developments may affect and/or change our opinion and we have no obligation to update this opinion to take into account events occurring after the Latest Practicable Date or to update, revise or reaffirm our opinion. Nothing contained in this letter of advice should be construed as a recommendation to hold, sell or buy any Shares or any other securities of the Company.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In formulating our opinion in respect of the Transaction, we have considered the following principal factors and reasons:

1. Background of and reasons for the Transaction

(a) Background information of the Group

The Company is a joint stock limited company incorporated in the PRC with limited liability and the Shares are listed on the Main Board of the Stock Exchange (stock code: 1075). The Group is principally engaged in, inter alia, software development and services, system integration, data processing services, information professional services and etc.

The following table sets out key financial information of the Group for each of the two years ended 31 December 2021 (the “FY2020” and “FY2021”, respectively) as extracted from the 2021 Annual Report, and for the six months ended 30 June 2021 and 2022, respectively (the “6M2021” and “6M2022”, respectively), as extracted from the 2022 Interim Results Announcement:

	For the 6M2022	For the 6M2021	For the FY2021	For the FY2020

Net assets	1,219,869	1,188,753	1,243,802

Discussion on the Group's performance between FY2020 and FY2021

The Group's total operating income increased by approximately RMB16.2 million, or approximately 1.15%, from approximately RMB1,410.6 million for the FY2020 to approximately RMB1,426.8 million for the FY2021. Moreover, as set out in the 2021 Annual Report, the Group's gross profit for the FY2021 amounted to approximately RMB509.6 million, representing an increase of approximately 3.21% when comparing with that of the FY2020.

According to the 2021 Annual Report, the management of the Company primarily attributed the steady growths in the Group's total operating income and gross profit to the booming digital economy in the PRC in recent years where information technology and data have been key elements of development. The Group also managed to make a number of progresses during the FY2021, including but not limited to (i) obtaining certificates for its various products such as "Capinfo Connect", "CAPINFO EA4.0", "Internet of Things management infrastructure platform" and "blockchain infrastructure support platform", among which "Capinfo Connect" has been applied in more than 40 units in Beijing, covering over 30,000 people; (ii) winning the bid for the qualification of Beijing municipal government cloud service provider and the municipal SASAC supervision platform project; (iii) actively carrying out research and development of new generation of cloud-based provident fund products, developing the enterprise cloud market, and expanding service areas such as medical insurance cloud and judicial cloud; (iv) investing in the construction of new medical insurance information platform, accomplishing the switch over of 18.4 million participants' hospital settlement business; and (v) propelling the construction of digital Longfusi and entering the new market of digital transformation of enterprises. Please refer to the section headed "management discussion and analysis" in the 2021 Annual Report for further discussions on the Group's performance in the FY2021.

The Group's operating profit decreased by approximately RMB108.2 million, or approximately 69.27%, from approximately RMB156.2 million for the FY2020 to approximately RMB48.0 million for the FY2021. Meanwhile, the Group's net profit decreased by approximately RMB107.4 million, or approximately 78.22%, from approximately RMB137.3 million for the FY2020 to approximately RMB29.9 million for the FY2021. Both the aforesaid decreases were primarily attributable to the Group's

impairment loss on goodwill recorded in the FY2021, which amounted to approximately RMB107.8 million. As set out in the 2021 Annual Report, excluding such impairment loss on goodwill of the Group, the profit attributable to owners of the Company for the FY2021 would have been amounted to approximately RMB126.2 million, which would be close to that for the FY2020 of approximately RMB127.5 million.

The Group's total assets and net assets generally remained stable between 31 December 2020 and 2021.

Discussion on the Group's performance between 6M2021 and 6M2022

The Group's total operating income increased by approximately RMB48.5 million, or approximately 11.3%, from approximately RMB427.4 million for the 6M2021 to approximately RMB475.9 million for the 6M2022. In addition, the Group's operating profit increased from approximately RMB45.2 million to approximately RMB47.5 million, and the Group's net profit increased from approximately RMB36.6 million to approximately RMB39.3 million, for the 6M2021 and 6M2022, respectively.

As set out in the 2022 Interim Results Announcement, during 6M2022, with a focus on its annual operating targets and key tasks, the Group integrated Party building with operation, comprehensively adjusted the organisational structure, continuously increased research and development investment, and made effort on developing core products with market competitiveness, and successfully completed the service assurance tasks for the Winter Olympics and Paralympic Games and the 13th National Congress of the Chinese Communist Party in Beijing, and maintained stable operation of major systems, such as the government network, government cloud, medical insurance, provident fund, and 12345 hotline.

The Group's total assets and net assets generally remained stable between 31 December 2021 and 30 June 2022.

Prospects

As reflected in the 2021 Annual Report, the management of the Company would make proactive efforts to serve and adapt to the new development pattern under the surging digital economy in the PRC, and leverage on the Group's strengths to innovate under the new stage, new situation and new requirements of the "14th Five-Year" and the main theme of the Digital China strategy. The Company would focus on, among others, technology research and development, operation model innovation, business cooperation, product innovation, business integration and corporate governance capabilities improvement. The Group's such intention generally remained unchanged for the second half of 2022, as reflected in the 2022 Interim Results Announcement.

(b) Reasons for and benefits of the Transaction

As set out in the Letter from the Board, it came to the awareness of the Company that according to The Instructions for Filing of Private Investment Fund* (《私募投資基金備案須知》⁶) (the “**Instructions**”) and The Notice on Announcement of Case of Private Fund Filing* (《關於發佈私募基金備案案例公示的通知》⁷) (the “**Notice**”), there should be no “maturity mismatch” or other violation on the part of managers of private equity fund. Where a private equity fund or venture capital fund involves investment in other closed-end asset management products (including private equity funds), attention should be paid to whether the duration of the fund covers the duration of the asset management products invested, that is, the maturity date of the upper-level private equity fund (parent fund) should not be earlier than the maturity date of the lower-level private equity fund (sub-fund).

As stipulated in the Limited Partnership Agreement, the duration of the Partnership will be ending on 11 September 2027, which may be extended by the Manager to 11 September 2028. As at the Latest Practicable Date, the remaining duration of the Partnership is only approximately five years without any extension.

For the establishment of mainstream funds in the market, the typical duration of an equity investment fund is seven to nine years. In order to ensure the successful filing and compliance of the new sub-fund to be invested by the Partnership, it is proposed that the duration of the Partnership be extended from the original duration of nine years for another eight years (i.e. ending on 11 September 2035) and the investment period be extended from the original period of five years for another five years (i.e. ending on 11 September 2028), and the terms of the Limited Partnership Agreement be amended accordingly.

Therefore, the Directors are of the view that, through extending the duration of the Partnership, the newly established sub-fund to be invested by the Partnership will be able to complete the filing requirements in accordance with the aforesaid rules and commence business in a compliant manner.

To assess the fairness and reasonableness of the aforesaid view of the Directors and also those of the Transaction, we have conducted our independent analysis on the reasons for and benefits of the Transaction as follows.

Avoiding mismatch between durations of the Partnership and sub-funds

The Instructions and the Notice and its attachment were published by the Asset Management Association of China (the “**Association**”). According to the website of the Association⁸ and our desktop search, the Association was incorporated in 2012 under The Law of the PRC on Securities Investment Fund and Regulation on Registration and Administration of Social Organizations of the PRC as a self-disciplinary organisation of

the securities investment fund industry in the PRC, supervised by the China Securities Regulatory Commission and Ministry of Civil Affairs of the PRC. The Association aims to, among other things, formulate and enforce industry standards and self-disciplinary rules in respect of the securities investment fund industry in the PRC, supervise the operations of its members and impose punishments upon violations of industry standards and self-disciplinary rules. Based on the background of the Association and its supervisory bodies, we considered it reasonable for the Partnership to follow the rules and guidelines published by the Association.

We have then studied the Instructions, the Notice and its attachment and noted that mismatch between durations of funds and sub-funds was stipulated as a misconduct which private fund managers should not commit. In particular, it was set out that the duration of a fund should fully cover the durations of all sub-funds or investment products that it has invested into.

In this regard, we have enquired with the Company and obtained a list of sub-funds that the Partnership has invested into, or intended to invest into, up to the Latest Practicable Date and their particulars and details. We noted that the Partnership has invested into three sub-funds (the “**Existing Sub-funds**”) and intended to invest into another sub-fund (the “**Potential Sub-fund**”) up to the Latest Practicable Date. The Partnership’s investments into the three Existing Sub-funds were made in September 2019, November 2021 and December 2021, respectively, and their expected times of investment exit (i.e. maturity) are September 2022, November 2026 and December 2027, respectively. We noted that the original duration of the Partnership, being the period from 12 September 2018 to 11 September 2027, cannot fully cover the duration of one of the Existing Sub-funds (the one the investment exit of which was expected to be in December 2027) without extension by the Partnership’s manager. On the other hand, the Partnership intended to invest into the Potential Sub-fund in the third quarter of this year, and the investment exit of it was expected to be in the third quarter of 2029. We noted that even if the Partnership’s manager opts to extend the duration of the Partnership to 11 September 2028, pursuant to the existing Limited Partnership Agreement, the extended duration of the Partnership still cannot fully cover the expected duration of the Potential Sub-fund.

Furthermore, we have enquired with the Company and understood that the Partnership intended to continue to identify other quality sub-funds and/or asset management products worth investing into. We also noted that the target capital commitment of the Partnership is RMB7,500,000,000, and up to the Latest Practicable Date, the aggregate amount of investments made or expected to be made by the Partnership was only approximately RMB740,000,000, being less than 10% of the target capital commitment of the Partnership. Considering the above, we believe that it is likely that the Partnership would invest into other sub-funds and/or investment products in the future. However, we noted that, on one hand, the Partnership would expire in approximately five years from the Latest Practicable Date based on its original duration without extension by the Partnership’s manager, and on the other, it is common that the durations of funds and sub-funds in the market would exceed five years. It can be

demonstrated by the expected duration of five and six years, respectively, of two of the Existing Sub-funds and the expected duration of seven years of the Potential Sub-fund. Taking into account (i) the rules regarding matching duration of funds and sub-funds published by the Association; (ii) the Partnership's intention to continue to invest into other sub-funds in the future; and (iii) that it is common that the durations of funds and sub-funds in the market would exceed five years, being approximately the original remaining term of the Partnership without extension by the Partnership's manager, we considered it reasonable and justifiable for the Partnership to propose an extension in its duration.

We have also considered the reasonableness of the proposed length of extension in the Partnership's duration pursuant to the Supplemental Agreement. Please refer to the paragraphs headed "Discussion on the proposed length of extension in the duration of the Partnership pursuant to the Supplemental Agreement" below for detailed discussion.

The investments made by the Partnership aligned with the Company's expectation and interest

Reference was made to the 2019 Circular. As set out in the paragraphs headed "Reasons for and benefits of the Transaction" in the letter from the Board contained in the 2019 Circular, through investing into the Partnership, the Board believed it to be in alignment with the Group's investment strategy for long term return, and expected the Company to be able to capture more investment opportunities, diversify the Group's investment portfolio, and deploy liquid cash of the Group to enhance its overall profitability.

In this regard, we have studied the target industries and natures of business involved in the Existing Sub-funds and Potential Sub-fund. We noted that the target industries and businesses of the aforesaid were principally based in the PRC and include, respectively, (i) development and operation of technology and industrial parks in the core area in the Yangtze River Delta of the PRC; (ii) aero-engine and gas turbine industry chain, high-quality military-civil fusion projects, involving advanced materials, advanced manufacturing and electronic system control; (iii) green and low-carbon footprint industries to support the development of innovative enterprises in science and technology; and (iv) establishment of technology innovation center in Beijing to support the development of "technologically advanced" enterprises with focuses on new energy, next-generation information technology, integrated circuits, medicine and health and other fields. Considering that the aforesaid target industries and businesses generally involved advanced technologies and innovations, including information, data and electronic technologies which were among the operational focuses of the Group, we concurred with the view of the Board that the Company's investment into the Partnership could create synergy effect for the Group such as establishing business relationship with and investing in large high-tech IT companies which the Group may otherwise not be able to invest in due to limited amount of funding available for investment, as well as broadening the customer base of the Group for its products and

services, and we had no reason to doubt that it would continue to create synergy effect for the Group when the Partnership invests in other high-technology related sub-funds or products in the future.

In addition, based on the natures of target industries and businesses involved in the Existing Sub-funds and Potential Sub-fund and their wide variety in the fields of advance technologies, we agreed that investment into the Partnership could bring long term return for the Group and diversify its investment portfolio.

Continued participation in the Partnership represented an appropriate way to deploy liquid cash of the Group

We have further considered the prevailing liquidity position of the Group, and noted that the Group recorded monetary fund amounting to approximately RMB1.1 billion as at 31 December 2021, the date on which the latest audited financial information of the Group was made. We have also enquired with the management of the Company and were given the understanding that the Group still considered its working capital to be sufficient for its daily operations after taking into account the Company's capital commitment under the Partnership. Considering the prevailing liquidity position of the Group and the expectation of the Company's management in this regard, we also agreed that the Company's investment into the Partnership represented an appropriate way to deploy liquid cash of the Group and to enhance its overall profitability.

Conclusion

Considering that (i) it is reasonable and justifiable for the Partnership to propose an extension in its duration; (ii) the Company's investment into the Partnership could create synergy effect for the Group, and we had no reason to doubt that it would continue to be so; (iii) the Company's investment into the Partnership could bring long term return for the Group and diversify its investment portfolio; and (iv) the Group had a satisfactory prevailing liquidity position and the Company's investment into the Partnership represented an appropriate way to deploy liquid cash of the Group and to enhance its overall profitability, we were of the view that the entering into of the Supplemental Agreement is fair and reasonable for and in the interests of the Company and Shareholders as a whole.

2. Principal terms of the Supplemental Agreement

The principal terms of the Supplemental Agreement are set out below:

The remaining Duration after the expiration of the investment period shall be the "Payback Period" of the Partnership. The Manager may determine and adjust the Investment Period and the Payback Period according to the operational needs of the Partnership.</p>

3. Discussion on the proposed length of extension in the duration of the Partnership pursuant to the Supplemental Agreement

Pursuant to the Supplemental Agreement, the Partnership proposed to extend its duration for another eight years, covering the period from 12 September 2018 to 11 September 2035, which may be extended to no more than one year by the Partnership's manager, and the investment period of the Partnership for another five years, covering the period from 12 September 2018 to 11 September 2028.

Comparable analysis

In analysing the fairness and reasonableness of the aforesaid proposed length of extension in the Partnership's duration, we have attempted to conduct a comparable analysis and searched, for this purpose, for comparable transactions of other listed issuers under the following criteria: (i) the transaction should involve the listed issuer, as a limited partner, forming a fund or limited partnership with other parties for the purpose of investment; and (ii) the transaction should be announced on the website of the Stock Exchange from 1 March 2022, being approximately five months immediately prior to the date of the Supplemental Agreement to ensure that it reflects the prevailing market conditions, to 29 July 2022, being the date of the Supplemental Agreement. Other than the aforesaid criteria, we did not impose any other restriction in our search for comparable transactions to ensure that the search result would be as comprehensive as possible. Based on the aforesaid criteria, we have been able to identify a total of 16 comparable transactions (the "**Comparable Transactions**"), which to our best endeavour and belief is an exhaustive list of comparable transactions and which we considered sufficient for the purpose of comparing with the Transaction.

The following table illustrates details of the Comparable Transactions.

As illustrated by the table above, the specified durations of the funds or limited partnerships under the Comparable Transactions ranged from five to 15 years, and the fund or limited partnership under three of the Comparable Transactions would continue to exist until termination. Although no clear correlation could be observed between the durations of

partnerships and natures of target industries or businesses of the Comparable Transactions, we noted that among the five Comparable Transactions under which the specified duration of partnership exceeded ten (10) years, the partnerships in three of them targeted at the new energy sector and/or information technology industries, such as semiconductor businesses. We also noted that (i) the partnership under one of the Comparable Transactions having unspecified duration targeted at advanced manufacturing; and (ii) the partnership under another Comparable Transaction having a specified duration of seven (7) years targeted at integrated circuits, new energy and intelligent manufacturing industries. Based on our observation above, we were of the view that partnerships targeting at new, innovative, advanced technology or manufacturing industries or industries requiring substantial amount of initial fixed investment exhibit a tendency to have relatively longer durations, as they might need more time to complete both the investment cycle and return cycle due to the nature of their investment target.

The proposed extended duration of the Partnership of 17 years is slightly above the range of partnership durations under the Comparable Transactions. Nonetheless, we noted that the durations of the funds or limited partnerships under the Comparable Transactions were generally subject to any extension upon agreement of the partners without limitation in length of extension, save and except for the aforesaid transactions of BOCOM International Holdings Company Limited (stock code: 3329) (the one the announcement of which was dated 27 July 2022), China Merchants Securities Co., Ltd. (stock code: 6099) and Zhongguancun Science-Tech Leasing Co., Ltd. (stock code: 1601). In this sense, we considered that the range of specified durations of the funds or limited partnerships under the Comparable Transactions does not represent a hard cap of duration of funds and limited partnerships in the market.

In addition, we have considered the nature of target industries and businesses of the Partnership which, based on its historical investments, involved advanced manufacturing, advanced information technology, new energy and fixed investment in science, technology and industrial parks, among other things. We were of the view that the target industries and businesses of the Partnership were in line with those of the partnerships which have relatively longer duration among the Comparable Transactions, as discussed in the previous paragraphs. We also agreed that the investment targets of the Partnership indeed generally exhibit characteristics of longer investment and return cycles in the market. Therefore, we considered it reasonable that the Partnership proposes a relative long duration.

In respect of the proposed extension in the investment period of the Partnership, we have considered that, in aggregate and up to the Latest Practicable Date, less than 10% of the target capital commitment of the Partnership has been invested or expected to be invested since the commencement of the the Participation Agreement and the Limited Partnership Agreement in September 2018. We have also considered that the Existing Sub-funds and Potential Sub-fund have investment periods of three (3), two (2), three (3) and four (4) years, respectively, before bringing investment returns, and agreed that future investments made by the Partnership may also have a significant investment period before generating return. We thus were of the view that a longer investment period may be necessary for the Partnership to fully apply and utilise its target capital commitment.

In respect of the proposed extension in the payback period of the Partnership, we have taken note that the historical investments made by the Partnership generally exhibited a characteristic of relatively long investment or establishment period before return (i.e. operation of technology and industrial parks, advance manufacturing chains and advanced technology companies). We have also enquired with the Company and understood that the Partnership may continue to invest in projects having relatively long investment or establishment period before return in the future to generate on-going benefits. Based on the above and our observation on the durations of partnerships under the Comparable Transactions, and having considered that the historical investment targets of the Partnership and its expected investments in the future could generally exhibit relative long investment, product and return cycles, we also agreed that a longer payback period may be necessary for the Partnership to fully pursue investment returns.

Though the proposed extended duration of the Partnership of 17 years is slightly above the range of specified durations of the funds or limited partnerships under the Comparable Transactions, having considered all the above and the reasons for and benefits of the Transaction, we considered the terms and conditions of the Supplemental Agreement, particularly the proposed extended duration of the Partnership of 17 years, to be fair and reasonable and in the interests of the Company and Shareholders as a whole.

4. Possible financial effects of the entering into of the Supplemental Agreement

By entering into the Supplemental Agreement, the Company continues to hold 4% equity interest in the Partnership. As the Transaction will not result in change of shareholdings in the Partnership by the Company, no gain or loss will be recognized by the Company.

(a) Earnings

The remaining balance of the Group's capital contribution to the Partnership will be accounted for as other non-current financial assets of the Group and the calculation of value is according to the PRC accounting standards. Any gain or loss will be recognised in the financial statement under the PRC accounting standard, which, in turn, may have an impact to the earnings of the Group.

(b) Assets and liabilities

Except for the transaction costs and future performance of the Partnership, there is no gain or loss associated with entering into the Supplemental Agreement and the transactions contemplated thereunder.

There are no material changes in the total assets and liabilities of the Group immediately after the entering into of the Supplemental Agreement.

(c) *Working capital*

The Directors are of the opinion that, taking into account the financial resources available to the Group, including the internally generated funds and the presently available bank facilities, and taking into account the impact of the transactions contemplated under the Supplemental Agreement, the Group will have sufficient working capital for its requirements for at least the next 12 months from the date of the Circular.

As set out in the Circular, the Company has obtained the relevant confirmation as required under Rule 14.66(12) of the Listing Rules.

RECOMMENDATION

Having considered the principal factors and reasons discussed above, we are of the opinion that the entering into of the Supplemental Agreement and the transactions contemplated thereunder, though not being in the ordinary and usual course of business of the Group, are (i) justifiable, fair and reasonable; (ii) in the interests of the Company and Shareholders as a whole; and (iii) the terms of the Supplemental Agreement are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned. Accordingly, we recommend the Independent Board Committee to advise the Independent Shareholders to vote in favour of the resolution(s) to be proposed at the EGM to approve the Supplemental Agreement and the transactions contemplated thereunder and we recommend the Independent Shareholders to vote in favour of the resolution(s) in this regard.

Yours faithfully,
For and on behalf of
